## Employment opportunity for Surveying Technologist

AllTerra is currently seeking a Surveying/Geomatics Technologist. The ideal candidate holds a 2-year Diploma of Technology in Geomatics (or similar) and has 2+ years experience working with a land surveying company in BC. This position has great potential for a person who is, or wants to become, a "start to finish" technologist.

Qualities considered assets include:

- A conscientious, positive and willing attitude
- Strong communication skills, both oral and written
- Experience with MicroSurvey CAD, FieldGenius, StarNet, Leica robotics and Topcon GPS

Your initial role will be as Party Chief but the position will evolve to include office work as well for the right candidate.

This is a ground floor opportunity with a new and progressive company. Remuneration dependent upon experience and will include profit sharing.

Please email resumes, including an introductory cover letter, in confidence, to:

Mark Cahill BCLS
