MMM excels in the provision of multidisciplinary services for large-scale, complex projects, urban and residential developments, transportation, infrastructure, and environmental initiatives.

Take the next step in your career. Join a great employer that is innovative, highly successful and committed to promoting high performers.

POSITION DESCRIPTION

We have an immediate opening in our Kelowna office for a Survey Technologist with a background in engineering, legal, construction, and/or oil & gas surveys. The successful candidate will be highly motivated and capable of performing geomatics computations and CAD in an office environment. This is a unique opportunity to assume a significant role in the continued development of a modern and diverse surveying practice in the Kelowna area, as well as participate on larger project teams in other areas. This is primarily an office position. However, the opportunity may arise for the successful candidate to travel and participate in various assignments in Western Canada or elsewhere. Candidate will be required to perform various conventional survey computations, GPS processing, CAD and report writing.

POSITION REQUIREMENTS

- Degree or Diploma from a recognized Geomatics program or commensurate experience
- Knowledge of calculation and drafting software including Microsurvey, Leica Geo Office and AutoCAD. Knowledge of Civil 3D would be an asset.
- Knowledge of advanced drafting principles, plan assembly and drawing presentation.
- Excellent communication, organization, and technical skills.
- Excellent teamwork and interpersonal skills
